

Garland Bass Club Newsletter
Lake Bob Sandlin
March 27 & 28 2021

Well, the water was not quite warm enough. There were some nice stringers brought in but not over the entire lake. If you went to Lone Star and fished that area, the fish weren't on the bite. If you fished the main lake, they weren't there either. It appears that most of the fish came from the Willow Point area and above the pump station. Weather wasn't that bad and things started to warm by the time the GBC left on Sunday. Eddie, Reggie, & Rex took the top three awards, with several people chasing them. James Rickman (new member) Collin Paugh (guest) ,Gary Russell, all had over 10lbs. I bet big bucks on Bennie this time and he was like a through-Bred on a wet sloppy track. (he fell down and didn't get back up like he did last month. Oh well!

Our next outing used to be one of our favorites a few years back. Bob Sandlin has been good to the club for a long time. Start and weigh-in times are listed on our web site at www.garlandbassclub.com, as are the schedule and other bits of interesting data. Thanks to Jerry for keeping the web site up to date. Jerry also keeps the records for the club. Meeting this coming Monday evening at 7:00pm as usual. Yes Gary—this coming Monday! (3-22-21)

I am proud to be a member of the Garland Bass club! (Sounds like those damn car shield commercial)? And I am looking forward to fishing again this year. I hope to be fishing with this club for as long as I can. So, watch out Marvin, here I come! Remember that the web site is the official word and documents

*for the club! Everybody stay safe, stay warm, and be happy!
Also: you can't enjoy our sport if you don't get out and do it!*

Everyone love each other and I'll leave the light on for ya!!
